Audio Specification

GUIDELINES FOR FINAL MIXDOWNS

- **No Loudness Plugins:** Final mix delivered without loudness plugins on the master bus (e.g. Limiter, Clipper).
- **Headroom & Peaks:** Peak levels must not exceed 0 dBFS TP.
- **Additional Edits:** Please include all required additional versions if needed (e.g. Instrumental, Half-Playback, Clean Version).
- **Song Spacing:** Ensure enough space at the start and end of each song.

Stem Mastering

REQUIREMENTS FOR STEM DELIVERY

- All stems must have the exact same starting point.
- All stems set at unity gain (0 dB) should perfectly equal the final mix.
- Please also deliver a stereo reference mix of the final song.

Please fill out the form at **smr-mastering.de/order** and then upload your files
